### **Background**

The Diablo Community Services District (District) generates and receives records in paper and digital format in its normal course of business. To provide for the identification, maintenance, and safeguarding of these records and the destruction of obsolete records in the normal course of business; ensure prompt and accurate retrieval of records; and ensure compliance with legal and regulatory requirements the District Board of Directors is studying the adoption of a records retention resolution, policy, and schedule.

At its June meeting the District introduced and briefly discussed the preparation of a records retention policy to be considered by the Board of Directors for adoption. Directors Urbelis and Eorio, with input from the General Manager and General Counsel, have prepared such a policy.

Below are a sampling of the general guidelines the District will follow to establish a records retention policy. In forming the policy, these will be carefully evaluated and reviewed with counsel, and specific guidelines will be added to ensure clarity.

### **Draft Policy**

The District's draft policy and retention schedule are attached for your consideration. Consistent with applicable law, the policy and schedule generally provide that the District will retain records as follows:

- Records relating to the formation, change of organization, or reorganization of the district.
- Ordinances unless they have been repealed or have become invalid or otherwise unenforceable for five years.
- Minutes of any meeting of the district.
- Records relating to any pending claim, litigation, any settlement or other disposition of litigation within the past two years.
- Records that are the subject of any pending request for records under the California Public Records Act, whether or not the record is exempt from disclosure, until the request has been granted or two years after the request has been denied by the district.
- Records relating to any pending construction that the district has not accepted or for which a stop notice claim may be legally presented.

- Records relating to any non-discharged debt of the district.
- Records relating to the title to real property in which the district has an interest.
- Records relating to any non-discharged contract to which the district is a party.
- Records that have not fulfilled the administrative, fiscal, or legal purpose for which they were created or received.
- Unaccepted bids or proposals, which are less than two years old, for construction of any building, structure, or other public work.
- Records less than seven years old that specify any compensation paid to employees or independent contractors providing personal or professional services to the district, or that relate to expense reimbursement to district officers or employees or to the use of district paid credit cards or any travel compensation mechanism.

The schedule attached to the policy provides timelines for destruction of other records.

**Recommendation**

Staff recommends that the Board discuss the draft records retention policy and schedule. Staff will return with the policy for adoption at the October meeting.

## **Diablo Community Services District**

### **Records Retention and Destruction Policy**

#### **Purpose**

The purpose of this policy is to establish guidelines regarding the retention of records by the Diablo Community Services District (DCSD); provide for the identification, maintenance, and safeguarding of its records and the destruction of obsolete records in the normal course of business; ensure prompt and accurate retrieval of records; and ensure compliance with legal and regulatory requirements. This policy is subject to periodic review to ensure that records associated with new or changed work by the DCSD are properly retained/destroyed.

#### **General Guidelines**

The General Manager is authorized by the Board of Directors to interpret and implement this policy, and to cause to be destroyed any or all such records, papers, and documents that meet the qualifications governing the retention and disposal of records, specified in the Records Retention Schedule (Attachment A). The General Manager is also responsible for working with Directors to properly dispose of their records as required by this policy.

The following general guidelines apply to all district records:

1. Pursuant to the resolution adopted by the Board of Directors, except where a record is expressly required to be preserved according to state law, the district may destroy any document without retaining a copy of the document as long as the retention and destruction of the document complies with the Records Retention Schedule as set forth in this policy (Government Code Section [60201](#)).
  
2. In addition to the retention periods required under this policy, the district shall retain original administrative, legal, fiscal and/or historical records with continued value (i.e.,

records for long-term transactions and/or special projects) until all matters pertaining to such records are completely resolved or the time for appeals has expired.

(Government Code Sections [14755\(a\)](#) and [34090](#).)

3. Pursuant to Government Code Section [60201](#), the district shall not destroy any of the following records:

- Records relating to the formation, change of organization, or reorganization of the district.
- Ordinances unless they have been repealed or have become invalid or otherwise unenforceable for five years.
- Minutes of any meeting of the district.
- Records relating to any pending claim, litigation, any settlement or other disposition of litigation within the past two years.
- Records that are the subject of any pending request for records under the California Public Records Act, whether or not the record is exempt from disclosure, until the request has been granted or two years after the request has been denied by the district.
- Records relating to any pending construction that the district has not accepted or for which a stop notice claim may be legally presented.
- Records relating to any non-discharged debt of the district.
- Records relating to the title to real property in which the district has an interest.
- Records relating to any non-discharged contract to which the district is a party.
- Records that have not fulfilled the administrative, fiscal, or legal purpose for which they were created or received.
- Unaccepted bids or proposals, which are less than two years old, for construction of any building, structure, or other public work.
- Records less than seven years old that specify any compensation paid to employees or independent contractors providing personal or professional services to the district, or that relate to expense reimbursement to district officers or employees or to the use of district paid credit cards or any travel compensation mechanism.

## **Specific Guidelines**

At any time, the district may destroy rough drafts, notes, or working papers (except for audits) that are not retained by the district in the ordinary course of business, including temporary or transitory documents (e.g., planning tools, schedules). Duplicate records, papers, and documents may also be destroyed at any time.

In no instance are records, papers, or documents to be destroyed where there is a continuing need for such records due to pending litigation, needs of special projects, etc.

In addition to any required legal retention period, the district shall not authorize the destruction of any record subject to audit until it has been determined that the audit has been performed. (Government Code Sections [14755\(b\)](#) and [34090](#).)

## **Destruction Process**

A general schedule shall be established for the review and destruction of records being retained to determine whether any have reached or passed their destruction date; e.g., every six months, annually. The General Manager shall prepare a list of records to be destroyed and request formal destruction approval from the Board's President or Vice President. These destruction approval forms will become a district record and have an appropriate retention/destruction schedule.

Paper records will be destroyed by shredding. Digital records will be destroyed through a formal deletion process.

## **Records Management**

Record media can take many forms: paper; digital, such as contracts, correspondence, certain email determined to be a record; video of meetings; etc. Except where required by law, the district will retain its records in digital form. This includes all meeting minutes, budget and accounting information, contracts, correspondence, legal documents, etc.

Records will be stored in a secure cloud space, organized for easy access for those who need to do so. Backup will be created to ensure against loss. Backups of records will be

created/destroyed according to the rules identified in the Records Retention Schedule. The methods used for record storage shall be reviewed from time-to-time as technology advances.

Email is generally not considered a record since it is a sharing of information rather than official documentation of a work product/action/decision. The Records Retention Schedule provides the details on how email will be addressed by the district.

Directors leaving the Board and contractors completing work for the district are required to turn over any official records or copies of records that they have retained and sign a formal statement that they no longer have access to Board records. These records will be destroyed according to record retention rules.

#### **Records Retention Schedule**

The "Records Retention Schedule" is incorporated into this policy as Attachment A. This policy and the Records Retention Schedule comply with the records retention guidelines provided by the California Secretary of State.
