August 12, 2024

Dear DCSD Board Members

Unfortunately, I am out of state and not able to attend the meeting tonight, however, I am most pleased to see, finally after many years, the Records Retention policy come forward for review and approval by the Board. This is long overdue and should have been completed years ago! This is important for the future of this Board, the preservation and electronic access to District business and is non-controversial and much needed!

I am very supportive of the policy as written and hope to see each and every member of the Board vote to approve the policy. Anything determined to be "historical" and not a part of the official business of the District should be given to the DPOA for safe keeping as they are the social/historical entity that can and should house this information.

I applaud the hardworking members including President Urbelis, Director Cox, our attorney and General Manager who all assisted on creating this policy and I look forward to seeing it finally being implemented!

Additionally, I again request the District to move forward with the three foot setback requirement via Contra Costa County as new development within Diablo has increased at never seen before levels and public safety on our narrow streets is of paramount concern. Please act swiftly to enact this much needed ordinance via the County.

Sincerely,

Jeff Eorio, resident

## Diablo Community Services District Records Retention and Destruction Policy August 12, 2024

## **Purpose**

The purpose of this policy is to establish guidelines regarding the retention of Diablo Community Services District ("District") records; provide for the identification, maintenance, and safeguarding of District records and the destruction of obsolete records in the normal course of business; ensure prompt and accurate retrieval of records; and ensure compliance with legal and regulatory requirements. This policy is subject to periodic review to ensure that records associated with new or changed work by the District are properly retained/destroyed.

#### **Definitions**

- <u>Document or Record</u> means any handwriting, typewriting, printing, photostating, photographing, photocopying, electronic mail or facsimile transmission, and every other means of recording upon any tangible thing, any form of communication or representation, including letters, words, pictures, sounds, or symbols, or combinations thereof, and any record thereby created, regardless of the manner in which the record has been stored.
- 2. <u>Official Record</u> means a record that: (a) is required to be maintained for a specific period of time under the attached Records Retention Schedule (Attachment A); (b) is otherwise required by law to be kept permanently or for a specific period of time; or (c) is necessary and convenient to the discharge of a District officer or employee's official duties and was made or retained for the purpose of preserving its informational content.
- 3. <u>Transitory Record</u> means a record whose value is comparatively short-lived and may be discarded when it has fulfilled the brief, limited purpose for which it was created. Transitory records include, but may not be limited to, preliminary drafts, notes, or inter- or intra-agency memoranda not kept in the ordinary course of business and the retention of which is not necessary for the discharge of a District officer or employee's official duties. Specific examples are: transmittal letters, acknowledgments, drafts, rough notes, preliminary calculations, non-substantive follow-up communications or reminders, and similar electronic communications that, based on their content, are not required to be retained as "Official Records."

## **Authorization**

The General Manager is authorized by the Board of Directors to interpret and implement this policy, and to cause to be destroyed any or all such records, papers, and documents that meet the qualifications governing the retention and disposal of records, specified in the Records Retention Schedule (Attachment A). The General Manager is also responsible for working with the Directors to properly dispose of their records as required by this policy.

## General Guidelines

The following general guidelines apply to all District records:

- 1. Except where a record is expressly required to be preserved according to applicable law, the District may destroy any original obsolete document without retaining a copy of the document as long as the retention and destruction of the document complies with the Records Retention Schedule as set forth in this policy (Government Code Section 60201).
- 2. In addition to the retention periods required under this policy, the District shall retain original administrative, legal, fiscal and/or historical records with continued value (i.e., records for long-term transactions and/or special projects) as Official Records until all matters pertaining to such records are completely resolved or the time for appeals has expired.
- 3. Pursuant to Government Code Section 60201, the District shall not destroy any of the following records:
  - Records relating to the formation, change of organization, or reorganization of the District.
  - Ordinances until they have been repealed or have become invalid or otherwise unenforceable for five years.
  - Minutes of any meeting of the District.
  - Records relating to any pending claim, litigation, any settlement or other disposition of litigation within the past two years.
  - Records that are the subject of any pending request for records under the California Public Records Act, whether or not the record is exempt from disclosure, until the request has been granted or two years after the request has been denied by the District.

- Records relating to any pending construction that the District has not accepted or for which a stop notice claim may be legally presented.
- Records relating to any non-discharged debt of the District.
- Records relating to the title to real property in which the District has an interest.
- Records relating to any non-discharged contract to which the District is a party.
- Records that have not fulfilled the administrative, fiscal, or legal purpose for which they were created or received.
- Unaccepted bids or proposals, which are less than two years old, for construction of any building, structure, or other public work.
- Records less than seven years old that specify any compensation paid to employees or independent contractors providing personal or professional services to the District, or that relate to expense reimbursement to District officers or employees or to the use of district paid credit cards or any travel compensation mechanism.
- 4. Except as otherwise provided in this policy, the General Manager may authorize the destruction of hard copy originals of Official Records upon complying with all of the requirements of Government Code section 60203, which ensures that such records are reproduced and maintained in a format that accurately reproduces the original in all details and that does not permit modifications. Such methods may include, but are not limited to, having the records photographed, microphotographed, reproduced by electronically recorded video images on magnetic surfaces, recorded in the electronic data processing system, recorded on optical disk, reproduced on film or any other medium that is a trusted system and that does not permit additions, deletions, or changes to the original document, or reproduced on film, optical disk, or any other medium in compliance with Government Code section 12168.7 for recording of permanent records or nonpermanent records.
- 5. In destroying records pursuant to this Policy and the Records Retention Schedule, if a record relates to any project funded, in whole or part, by federal or State grant funds, the District shall comply with any federal or State law applicable to the preservation of records related to the grant, including, without limitation, 2 CFR Part 200. If there is any conflict between this Policy or Records Retention Schedule and any federal or State law regarding the preservation of records related to the applicable grant, the provisions of federal and State law will prevail.

## Specific Guidelines

- At any time, the District may discard Transitory Records that have fulfilled their limited purpose; provided, however, that any Transitory Records subject to paragraph 3 of this section may not be discarded and shall be temporarily retained for the necessary period.
- 2. The General Manager is authorized to destroy at any time any duplicate record of the District, while the original, whether in paper or electronic format, is retained by the District for the legally required time period.
- 3. Disposal of any record, whether it is an Official Record that has met or exceeded its retention periods or a Transitory Record that has fulfilled its limited purpose, must be postponed if the record is responsive to, subject to, or relates in some way to any of the following:
  - A pending Public Records Act request received by DCSD;
  - A subpoena served on DCSD;
  - A Request for Production received by DCSD from an opposing party in litigation;
  - A court order;
  - A litigation hold or request for preservation of evidence received by DCSD; or
  - A claim filed against DCSD under the Government Claims Act.

The above exceptions apply to both hard copy and electronic records.

4. In addition to any required legal retention period, the District shall not authorize the destruction of any record subject to audit until it has been determined that the audit has been performed.

## **Destruction Process**

A general schedule shall be established for the review and destruction of records being retained to determine whether any have reached or passed their destruction date; e.g., every six months, annually. In consultation with General Counsel, the General Manager shall prepare a list of records to be destroyed and request formal destruction approval from the Board's President and Vice President. These records destruction approval forms will become a District record and have an appropriate retention/destruction schedule.

Paper records will be destroyed by shredding. Electronic records will be destroyed through a formal deletion process.

## **Records Management**

Except where required by law, the District will retain its records in electronic format. Records shall be stored in a secure cloud space and organized in an accessible manner. Backup shall be created to ensure against loss. Backups of records shall be created/destroyed in accordance with the Records Retention Schedule and this policy. The methods used for record storage shall be reviewed from time-to-time as necessary.

Emails relating to District business, whether located on a District-owned electronic device or account or a personal electronic device or account are considered "public records" under the California Public Records Act and may be subject to disclosure-

Directors leaving the Board and contractors completing work for the District are required to turn over any Official Records or copies of records that they have retained and sign a formal statement that they no longer have access to District records. These records will be destroyed in accordance with this policy.

## **Records Retention Schedule**

The "Records Retention Schedule" is incorporated into this policy as Attachment A. This policy, including the Records Retention Schedule, shall comply with applicable law, as well as the records retention guidelines provided by the California Secretary of State. The Records Retention Schedule may be updated from time to time by the General Manager with authorization from the Board of Directors in order to stay current with applicable laws, as well as any other regulations, regarding the retention of District records.
